

Aspen Gray Wolves

Aspen 21st Century Enrichment Program will be available for your student and your family. Your student will be able to attend virtual classes and on-site classes when the school starts the hybrid model. We will help students with homework/ unfinished classwork, science stem classes, and art classes with the focus being on reading and math. Teachers will help students be successful in school and will provide some fun sessions. Parents your student will need to commit to checking in at 3:00 and do a 30 minute session four days a week Monday, Tuesday, Thursday, and Friday.

Participate in activities designed to promote Science, Technology, Art and Math.

21st CCLC is here to support your student!

As we begin the school year we will be doing online for the 1st quarter or until we have health orders to begin the hybrid model.

21st CCLC will follow the district's Re-Entry Plan. So, if your student is in Group A, they will follow that schedule. If they are group B, they will follow that schedule.

The 21st CCLC is flexible and open to suggestions to better serve the needs of the students.

A robocall and emails will go out to get your student registered. You can also contact one of the following:
